Miss Amy Wellington gave us a years subscription to Mc Clures Magazine, and Mrs. George H. Gale kindly gave us the full set of Encyclopedias. 78 new books are about to be added.

Elizabeth F. Houser
Librarian.

School Report.

For the year ending March 1, 1905.

In presenting the annual report of our school-work of the past year, according to custom, and the law of our state, we beg leave to offer briefly, a few thoughts for your consideration which have presented themselves while in the discharge of our official duties. Realizing the responsibility that rests with those who have charge of our schools and the education of the rising generation, we have earnestly endeavored to perform our duties, faithfully and impartially, conscious of our fallibility we confess our liability to make mistakes.

We have endeavored to conduct our expenditures economically and in a manner to secure the best results, and it is very gratifying to be able to report a school-year of thirty weeks which is as large a number as the district has ever attained to. The usual number of schools have been maintained and all pupils given as near equal privileges as possible.

The school on the West-road has been maintained at the Carter school-house, a change which was highly appreciated by those in the vicinity of the school. As usual all pupils that could be best convened at Kezer Seminary have had their tuition payed by the district at that institution, and from such knowledge as we have been able to gain have made good advancement under the instruction of a teacher of high intellectual attainments. The treasurer's report will show the amount expended for tuitions.

It is well-known that most of our school-buildings are in good repair. The Centre school-house has been given two coats of paint, which has improved its appearance greatly. The Intervale school-room is in great need of repair, it should be replastered and painted. The Shaker school-room also needs replastering and a new chimney should be built. New flags have been provided at the expense of the town, for all schools, which were not previously supplied. The books in our schools are in bad condition which will require a larger appropriation for supplies the coming year. No change has been made in text books during the past year with the exception of the introduction of the Health Third Reader. Taking into consideration the condition of many of the books in our schools we believe it will be necessary to make other changes in the near future.

As we look back over the work which has been accomplished in our school-rooms the past year we are confident the facts will justify us in reporting a successful school-year. Good progress has been made in all of our schools. We cannot expect all teachers to be alike successful, as all do not possess every qualification which are essential in reaching the highest degree of success. We have endeavored to secure the best teachers possible, many of those have had considerable experience in our schools, and their work in our schools is too well and favorably known to require any word of commendation from us. While those whose names are new on our list of teachers worked patiently and faithfully for the advancement of their pupils and success crowned their efforts.

We are sorry to report the number of pupils in our schools annually diminishing. While on the other hand we are pleased to report the average attendance far above that of thr previous year. It will be seen that the Roll of Honor is a long one, and greatly exceeds any record made in our schools within the past twelve years. There can be no excuse for non-attendance other than sickness, while many parents manifest much interest in the welfare of our schools we regret there are others who do not feel the deep personal responsibility in the constant attendance of their children at school which they should. Allowing children to be tardy or to absent themselves from school on the grounds of convenience or pleasure is entirely wrong. The parent will do the child the greatest possible good by insisting on prompt and regular attendance at school. The large number of visitors to our schools by parents and friends has been very encouraging to both teacher and pupils, and shows an abiding interest in the welfare of our scholars. We believe the standing in scholarship among our boys and girls has never been higher than at present. The fact that many of our pupils are entering Seminary and high-schools at the age of 14 or 15 years is abundant proof that our people have been liberal in their appropriations and that their money has been well expended.

In conclusion we would again extend our thanks for the honor confered, and for the sympathy and cordial support which we have received from all interested in the welfare of our schools.

With the hope that all of our schools will be far more successful in the future than they have been in the past, we respectfully submit our annual report.

William W. Wheeler,
Chairman of School Board.

ROLL OF HONOR.

Intervale School.

First Term—Clara M. Maynard.

Second Term—Raymond G. King, Henry J. Maynard, William T. Maynard, Clara M. Maynard.

Third Term—Henry J. Maynard, Williem T. Maynard, George E. King, Guy D. Colby, Raymond G. King.

Carter School.
